PROFILE

I am a 3rd-year Computer Engineering student with a strong interest in data science, artificial intelligence, and computer vision. I actively develop my skills through Python, machine learning, and image processing projects, transforming theoretical knowledge into practical applications. During my internship, I aim to take an active role in real-world projects and continue improving both my technical and professional skills.

EXPERIENCE

AI Computer Vision Developer
TEKNOFEST 2026 Çelikkubbe Air Defense Systems Competition

- Took responsibility for the artificial intelligence and computer vision module in a 3-person software team.
- Designed an AI vision pipeline by developing real-time object detection, tracking, and classification algorithms on live camera streams.
- Integrated computer vision outputs with the GUI and machine control software, contributing to the system’s autonomous decision-making process.

PROJECTS

MLSanity – Python, Typer, Rich, Pandas, Pillow/OpenCV, HTML, CSS

- Developed an open-source tool that detects dataset quality problems before model training, such as missing data, corrupted images, and class imbalance.
- Simplified the pre-training data validation process by generating command-line reports and data analysis outputs.

<https://github.com/gkxvall/MLSanity>

ByteFlow – Python, PyTorch, DataLoader, zip/tar/zstd/lz4, Pillow/OpenCV

- Developed a data loading system designed to store large datasets in compressed formats and read them in a streaming manner during model training.
- Aimed to optimize storage usage and data access workflows through a structure that can be integrated into PyTorch training pipelines.

TECHNICAL SKILLS

Programming: Python, C, Java, Ruby, JavaScript, Swift
Tools: Git, GitHub, Jupyter Notebook
Data Science & Artificial intelligence: NumPy, Pandas, Scikit-learn, PyTorch, TensorFlow, OpenCV, Matplotlib

EDUCATION

Bachelor’s Degree 2023 – 2027
Ondokuz Mayıs University
Department of Computer Engineering — 3rd Year

LANGUAGES

English: C1 — Professional working proficiency **Turkish:** C1 — Advanced proficiency
French: B2 — Upper-intermediate proficiency **Arabic:** C1 — Advanced proficiency
